Technology & Legal Ethics: Federal Practice in the Digital Age

The 2017 Federal Judicial Roundtable will host more than 30 federal judges and 100 practitioners. This year's interactive program will explore cutting-edge legal ethics issues emerging as technology enters the practice of law and the courtroom. Judges and attendees will review specially-crafted hypotheticals to analyze the uses of technology in federal court, including case preparation, juror investigation, presentation of evidence and testimony, judiciary usage, and opening/closing statements. This year's Roundtable is an opportunity for Florida Bar members to speak informally with federal judges about developing technologies and ethical concerns effecting federal practice in Florida.

This event is free for all judges, lawyers, law professors and law students. Space is limited.

Register for the 2017 Federal Judicial Roundtable online using The Florida Bar Annual Convention portal. You can attend the 2017 Federal Judicial Roundtable without paying convention registration, but you MUST pre-register.
